SUMMARY

Solutions-driven developer with an ownership mindset building scalable, client-focused web applications. Proven ability to translate complex business requirements into actionable technical outcomes, optimize rendering performance, and collaborate in Agile environments to deliver high-quality software.

KEY SKILLS

Programming Languages:	JavaScript (ES6+), TypeScript, Java, SQL, Python
Frontend Frameworks:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design
State & Data Handling:	Redux Toolkit, Context API, RESTful APIs, Axios, JSON
DevOps & Development Tools:	Git, GitHub, Docker, CI/CD Pipelines, Postman, Bun, Linux/macOS
Core Competencies & SDLC:	Agile/Scrum, Problem-Solving, Unit Testing, Data Structures & Algorithms

EXPERIENCE

MrManager

Remote

Frontend Developer

Jan 2026 – Jul 2026

- Architected scalable, client-focused web applications using **Next.js** and **TypeScript**, translating business requirements into technical outcomes in an **Agile** team environment.
- Developed modular, type-safe frontend component libraries with an ownership mindset, streamlining release cycles across sprints and maintaining strict UI quality standards.
- Managed deployment priorities by integrating **Docker** containerization and **CI/CD pipelines**, ensuring consistent, reliable automated build processes.
- Engineered robust **RESTful API** integrations utilizing strong analytical skills, implementing asynchronous data handling and error boundaries for seamless client experiences.

DigiVikreta

Remote

Frontend Developer I

Sep 2024 – Sep 2025

- Built responsive, cross-browser web solutions using **React** and **Tailwind CSS**, adapting independently to evolving business and technology needs.
- Integrated complex **REST APIs** and centralized state management via **Redux Toolkit**, enabling dynamic, accurate data visualization for end-users.
- Optimized frontend rendering performance with high attention to detail, improving core web vitals and reducing initial page load times through targeted code-level optimizations.

Internshala

Remote

Student Partner / Campus Ambassador

Aug 2024 – Feb 2025

- Executed cross-functional campus outreach campaigns utilizing strong communication skills, driving registrations through targeted, data-backed strategies.

APPLIED PROJECTS

Velocity – 3D Product Visualization Platform

[Live Link](#)

- Engineered a high-fidelity 3D web platform using **React** and **Three.js**, delivering smooth, high-performance rendering via optimized GLTF assets and custom shaders.

NexBoard – Scalable Management Dashboard

[Live Link](#)

- Architected a client-focused data dashboard using **Next.js** and **TypeScript**, translating complex workflow requirements into intuitive data visualization flows.

EDUCATION

Manipal University Jaipur

CGPA: 7.2

Master of Computer Applications (MCA)

Mangalayatan University

CGPA: 7.5

Bachelor of Computer Applications (BCA)
